

# Workshop on Strangeness

31.7-3.8.2011 Bergamo

**Sunday, 31.7.2011**

---

16:00-18:00 Dominik Pleiner  
Chiral dynamics of kaon-nucleon interactions, revisited

**Monday, 1.8.2011**

---

9:00-12:00 Johannes Siebenson  
Strangeness Production close to Threshold in proton-nucleus and Heavy-Ion Collisions  
Introduction, Theory

13:00-14:30 Lunch break

14:00-17:00 Kirill Lapidus  
Strangeness Production close to Threshold in proton-nucleus and Heavy-Ion Collisions  
IQMD

17:00-20:00 Francesco Cusanno  
Strangeness Production close to Threshold in proton-nucleus and Heavy-Ion Collisions  
 $K^+$  Part 1

**Tuesday, 2.8.2011**

---

9:00-10:00 Francesco Cusanno  
Strangeness Production close to Threshold in proton-nucleus and Heavy-Ion Collisions  
 $K^+$  II

10:00-13:00 Robert Münzer  
Strangeness Production close to Threshold in proton-nucleus and Heavy-Ion Collisions  
 $K^+$

13:00-14:30 Lunch break

14:30-16:00 Rafal Lalik  
Strangeness Production close to Threshold in proton-nucleus and Heavy-Ion Collisions  
 $K^-$

16:30-18:00 Eliane Eppele  
C.J Batty, Kaonic Atoms of the early days

18:00-20:00 Jia-Chii Chen  
Kaonic Atoms in the recent years

## Wednesday, 3.8.2011

---

9:00-12:00     Martin Berger  
                    Phi Production.

12:00-13:00    Kirill Lapidus  
                    Summary of the Hartnack Paper

13:00-14:30    Lunch break
